

Corolla

A bold new beginning

TOYOTA

toyota.com.au

Oh what a feeling!

There's a spirit that runs through Toyota. It's a feeling of achievement. It pushes us. Inspires us.

— It's what saw us mass produce the first dedicated hydrogen fuel cell vehicle, the Mirai, and what will see us define the very future of movement. Our Japanese founders called it 'Kaizen,' but we simply call it 'continuous improvement.' A relentlessness to always move forward, never settle for good enough.

And here's the exciting part, this feeling of achievement is yours to experience. Life changing moments, just waiting to be told. Whether it's the thrill of experiencing the latest in technology, venturing somewhere completely new or simply spending more time with your family. That sense of achievement, whatever form it comes in, will be a feeling you never forget.

This is a journey for which we don't know the destination, but looking back at how far we've come, it's safe to say tomorrow looks exciting beyond imagination.

“

We are a group of passionate perfectionists who can't let well enough alone...

That's Toyota.

That's the spirit.

And that's our contribution to the world. We will be the best we can.

And we will help as many as we can to be the best they can...

— Eiji Toyoda

The fine edge of inspiration

Buckle up. The time has come for you to experience the next level of sophistication and excitement as you head out on the road to life's great adventures.

Corolla Hatch, the world's most popular small car, has been completely redesigned according to the principals of Toyota's New Global

Architecture (TNGA). The advanced design platform incorporates improvements to the overall body structure and chassis, including independent rear suspension and a lower centre of gravity to ensure a more inspired driving experience.

Corolla Hatch not only looks sharp, but it's also sharp off the line, powered by either a 2.0L Dynamic Force petrol engine or the latest Toyota Hybrid technology. It's filled with the latest tech and state-of-the-art safety features to deliver a fresh world of thrilling possibilities.

Cover: Corolla Hatch ZR Hybrid in Volcanic Red shown
This page: Corolla Hatch SX Hybrid in Eclectic Blue shown

Ahead of the crowd

With its lower, more purposeful posture and stance, Corolla Hatch signals it's about more than just stunning looks that stand out from the crowd. The sporty sculptured body and high-quality finish present a distinct and unmissable presence on the road.

The front end features bi-LED headlamps that are seamlessly connected by a trapezoid mesh grille that expresses more than just sporty intent.

The dynamic structure flows full length into the protruding rear flares that further accentuate the well-planted stance and cleverly disguise the increased luggage space within.

16" alloy wheels on Corolla Hatch Ascent Sport and SX models, rising to 18" on Hatch ZR, feature a unique twin spoke design that's a fresh statement of performance and style.

Corolla Hatch Ascent Sport Petrol in Oxide Bronze shown

Overseas model shown

Stunning all the way through

Step inside Corolla Hatch and elevate your senses.

The thoughtfully crafted interior with contrasting trim flows effortlessly throughout. This modern look and finish is accentuated by a spacious, minimalist layout featuring elegantly styled ornamentation.

Newly designed front seats hold firm, created to help minimise stress and heighten your overall comfort. On Hatch ZR, there's a choice of luxurious black or red leather accented trim to choose from.

The dual-zone climate control air conditioning on all Corolla Hatch Hybrid, SX and ZR models, will keep you cruising in maximum comfort, whatever the weather. And thanks to the new design principles of Toyota's New Global Architecture, all passengers will appreciate generous legroom and headroom.

Designed for maximum convenience, the smart entry and start system on all Corolla Hatch Hybrid, SX and ZR models means you can get in and get going with your key still in your pocket or bag.

7" Multi Information Display – Hatch ZR only

A seamless world of innovation

All the instrumentation and controls in Corolla Hatch have been designed to promote a blissfully intuitive experience.

The 8" colour touchscreen display incorporates the latest Toyota infotainment features including Bluetooth®¹ connectivity, voice recognition, Siri™ 'Eyes-Free' for iPhone,² reversing camera⁸ and Toyota Link³ to connect with your smartphone for live weather updates, travel and traffic information and more. On Hatch SX and ZR and optional on Ascent Sport models, it includes satellite navigation⁴ with SUNA™ traffic channel⁵ to help make the journey as smooth as possible.

On Hatch ZR models, the 7" Multi Information Display (MID) and Head-Up Display interact seamlessly with the colour touchscreen display to provide directions and key driving information right where you need it, so you can keep your eyes on the road.

Hatch SX and ZR models also feature a wireless phone charger,⁶ so you never need to worry about plugging in, and the 8-speaker JBL®⁷ premium audio on Hatch ZR will make all journeys fly by.

The Blind Spot Monitor⁸ (BSM) on Hatch SX and ZR is designed to help detect other vehicles that are approaching the blind spot of the outer mirrors and alerts the driver with indicators on the outer mirror surface.

Toyota
Safety
Sense

At Toyota, we constantly strive to create a safer driving environment for everyone. That's why we developed Toyota Safety Sense (TSS),¹⁰ a suite of active safety features designed to help support safe driving and help protect you and your passengers. Corolla Hatch features the latest TSS driver assistance technologies, aiming to recognise and help avoid certain hazards and collisions, giving you and your passengers greater peace of mind wherever you're headed.

Lane Trace Assist^{11,12}

When driving on highways and freeways, Lane Trace Assist (LTA)^{11,12} uses a camera to detect lane markings. It is designed to alert you and provide steering assistance to help avoid drifting and keep you centred in your lane.

Road Sign Assist¹²

Road Sign Assist (RSA)¹² was developed to help recognise road speed signs and provide information to you. It displays the most recently recognised speed limit on the Multi Information Display (MID).

Pre-Collision Safety system¹²

with pedestrian and cyclist detection¹³

Pre-Collision Safety system (PCS)¹² with pedestrian and cyclist detection¹³ is a multi-stage warning system. Using an integrated camera and radar to help detect other vehicles in front of you, the PCS is designed to assist the driver where there is a likelihood of frontal collision with cars and pedestrians during day or night, or cyclists during the day time. PCS includes a visible and audible alert of possible collisions, additional braking force to assist when you're braking, and if a collision appears to be unavoidable automatic braking to help mitigate impact.

All-speed Active Cruise Control^{12,14}

Active Cruise Control (ACC)^{12,14} is designed to help keep a constant distance between vehicles. It uses a milliwave radar to monitor the gap between your vehicle and the one in front, automatically accelerating or slowing down when needed to help you maintain a set distance.

Lane Departure Alert¹²

with steering assist

Lane Departure Alert (LDA)¹² with steering assist is designed to help prevent vehicles drifting from their lane, by monitoring road markings, and providing a visible and audible alert should it detect any deviation from the lane. It may also apply additional steering force if needed, to help you stay in your lane.

Automatic High Beam¹²

Using a camera to sense either approaching headlights or the tail lights ahead, Automatic High Beam (AHB)¹² is designed to help you maintain safe and considerate driving by switching between high and low beam as needed.

A stylish expression of power

Beyond being totally re-engineered, Corolla Hatch has also been completely reinvigorated to deliver a thrilling drive with a choice of either a powerful petrol engine or advanced Toyota Hybrid technology.

The 1.8L latest generation Corolla Hybrid engine is even more responsive, delivering impressive off-the-line acceleration and a smooth driving experience, as well as enviable fuel efficiency.¹⁵

The 2.0L 4-cylinder Dynamic Force petrol engine delivers a significant boost in performance and response. It features Toyota's latest thinking to reduce engine weight yet increase power to a hefty 125kW and peak torque of 200Nm.

The direct shift Continuously Variable Transmission (CVT) offers enhanced acceleration, fuel efficiency and quietness. The continuously variable steel belt transmission is combined with a highly efficient gear transmission. It's innovative 'launch gear' provides thrilling acceleration off the line then delivers an incredibly smooth and quiet drive by integrating and adapting to different vehicle and driving

characteristics. Plus you can engage manual shift should greater response and control be required. The 6-speed intelligent Manual Transmission (iMT) on Ascent Sport petrol also delivers an incredibly smooth and satisfying drive. It automatically adjusts the engine speed during gear changes to make them easier and more efficient as well as producing enhanced performance.

For perfectly tuned performance, Active Cornering Assist (ACA) uses sensors and actuators to control the force through the driving wheels and braking system to ensure excellent cornering control and fully utilise the grip of the tyres.

Corolla Hatch ZR Hybrid model shown

Enjoy the irresistible drive of Corolla Hybrid for longer

The latest next generation Corolla Hybrid engine provides the optimum balance between fuel economy, low emissions and performance, and it's now available on all grades.

It delivers impressive acceleration, enviable fuel efficiency at up to 1,024kms¹⁵ on one tank, and a calmer, more responsive, driving experience than ever before. Enjoy less stopping and more going with no need to plug-in, with the latest 1.8L engine combined with the responsive electric motor that charges itself while you drive. In addition to the enhanced dynamic

performance provided by the lightweight engine and lower centre of gravity, the all-new port injection and valve variable timing on inlet (VVT-i) enhances output and fuel efficiency while also significantly reducing emissions.

Toyota has led the way in Hybrid technology for over 20 years. As it proves to be one of the most satisfying and enjoyable drives on the road, it's easy to see why millions of drivers worldwide have made the switch. You can be confident that Corolla Hybrid will take you further, for less.

Toyota Hybrid's latest technology gets you moving powerfully and smoothly every time. Enjoy an uncompromising drive with responsive, dynamic performance.

STARTING OFF

The electric motor is used primarily and power stored in the battery is used to turn the motor.

FULL ACCELERATION

Power is provided by the petrol engine in addition to the electric motor. Output is maximised for acceleration.

BRAKING & DECELERATION

The electric motor functions as a generator to recharge the battery by itself. No fuel is used, so there are no CO₂ emissions.

NORMAL DRIVING

A mix of petrol and electric is used for best economy, depending on the conditions. The battery is recharged where possible.

AT REST

With the car brought to a stop, the petrol engine cuts off. The system automatically avoids idling to conserve fuel and reduce CO₂ emissions.

Corolla Hatch Ascent Sport

- 2.0L 4-cylinder Dynamic Force Dual VVT-i petrol engine
- Direct shift Continuously Variable Transmission (CVT) or 6-speed intelligent Manual Transmission (iMT) – petrol only
- 16" alloy wheels

Stylish and sophisticated Corolla Sedan

The aerodynamic lines of Corolla Sedan elegantly express all of its refinement and attention to detail. More than just dynamic on the road, it's a fresh dimension of style that delivers a strong, self-assured presence of modern prestige.

The raised engine hood and deeply sculptured bumper corners on Corolla Sedan create a strong 3-dimensional appearance. The wide grille combines with the headlamps and trapezoid bumper structure to express movement while always presenting a strong, solid stance on the road. On the ZR, the bi-LED headlamps will light the way on the darkest nights.

Silver Ash Corolla Sedan ZR shown

Corolla Sedan ZR shown

Corolla Sedan ZR shown

The spacious Corolla Sedan

The Corolla Sedan interior features all the creature comforts you'd expect in such a sophisticated and stylish four-door sedan.

When driving on the open road you'll appreciate the convenience of cruise control. Upon reaching your destination, rear parking sensors⁸ and reversing camera⁸ with fixed guidelines will help you park with minimum fuss.

Then when it's time to load up with luggage and personal items, Corolla Sedan provides you with a generous and versatile 470L boot capacity.

On Sedan ZR, you'll feel comforted by the luxury of automatic climate control air conditioning, stunning black leather accented trim throughout, including a versatile console box storage.

Smart thinking

The 4.2" Multi Information Display (MID) shows a selection of essential trip, vehicle and audio detail right where you need it, and the 7" colour touchscreen display has Bluetooth^{®1} AUX and USB connectivity⁹ to keep you entertained on every journey. Steering wheel controls for the MID, telephone and audio offer extra convenience.

On the Sedan SX and ZR, smart entry and smart start allow you to hop in and go with your keys in your pocket, and satellite navigation⁴ with SUNA[™] traffic channel⁵ helps to ensure effortless travel.

In Sedan ZR, you'll also have the one-touch steering wheel sequential shift paddles to bring the 7-speed Continuously Variable Transmission (CVT) to life.

Safety by design

You'll drive with confidence knowing every Corolla Sedan is equipped with advanced safety features and awarded a maximum 5-star ANCAP safety rating (awarded in 2014).

There are 7 SRS airbags to help protect the driver and passengers, while Anti-lock Braking System (ABS) helps prevent wheel lock-up and skidding, and Vehicle Stability Control (VSC) counteracts any over steer or under steer when cornering. Traction Control (TRC) automatically controls engine output or applies the brakes to any wheel that's skidding on slippery surfaces or where there's variable grip. Emergency Brake Signal (EBS) alerts trailing vehicles if you're forced to make a sudden stop.

On Sedan ZR you'll have the added benefits of a number of Toyota Safety Sense (TSS) technologies: Lane Departure Alert, Pre-Collision Safety system and Automatic High Beam – optional on other Sedan grades.

Your colour your way

With a refined collection of six Corolla Sedan colours, you can match your Sedan to your personal taste. Be bold and sporty, or choose more understated style. The choice is yours.¹⁶

The Toyota Advantage

Every Toyota gives you a lifetime of advantages. That's what makes it a Toyota. You'll enjoy legendary Toyota value from the moment you drive away, and you'll continue to appreciate the quality, safety and innovation that's engineered into each model, every day you drive.

Discover the full range of products and services and find your nearest Dealer at toyota.com.au

Discover the freedom of Toyota Access²⁰

Toyota Access puts you in complete control when buying a new car, with lower monthly repayments.²¹ Drive out of the Dealership with a clear road ahead then drive back a few years later with more options at your disposal than ever before. Whatever stage you're at in life, Toyota Access puts you in the driver's seat with flexibility and assurance. To discover Toyota Access for yourself visit toyota.com.au/access

Capped price servicing

A new Toyota means you don't have to worry about unexpected service costs. Every Toyota comes with a low, capped price service cost for a set number of years/kilometres. Pay the same low capped price from one eligible logbook service to the next for up to five years or 75,000km on Hatch²², and up to three years or 60,000kms on Sedan²³, whichever occurs first (including Genuine parts, labour and fluids). For the full benefits consult a Toyota Dealer or visit toyota.com.au/advantage

We've got your back

Every new Toyota is built to exceptional standards, backed by a three year/100,000km warranty,²⁴ giving you the peace of mind to feel confident for years to come. In the unlikely event that you need them, every Toyota Service Centre is committed to providing any warranty repairs you may need. They have the technology, the tools, and the skilled personnel to keep your Toyota in excellent condition.

Your battery goes further²⁵

The Hybrid battery used by Toyota, requires no maintenance, charges automatically while you drive and never needs to be plugged into a power supply. The battery is disposable, recyclable and your Toyota Dealership can arrange recycling at no extra cost.

Finance to get you going

If you need a little help, Toyota Finance²⁶ can offer you a wide range of vehicle financing options. With Toyota Finance, you'll have the peace of mind of dealing with one of Australia's leading vehicle finance corporations with over 30 years experience. And with a range of flexible products and services to suit almost every need and circumstance, Toyota Finance can help find the right package for you or your business.

Insurance options

Our Comprehensive Motor Vehicle insurance policy is packed with great benefits including; agreed value cover, new vehicle replacement if your Toyota is written off within the first three years, use of Toyota Genuine Parts, and a Lifetime Repair Guarantee on repairs authorised by Toyota Insurance.²⁷ And our Factory Approved Extended Warranty Insurance also provides benefits, for more information visit toyota.com.au/insurance

Extend your peace of mind

Whether it's a flat tyre, lost keys or a flat battery, Toyota Extra Care Roadside Assist²⁸ is never more than a phone call away. Available 24 hours a day, seven days a week, our technicians are there to help you get back on the road.
